Customer Reviews

Actually I think I'm in love with the author ,Michael he keeps cranking them out almost fast enough for his readers like me. Honestly I don't know how he does it but gods willing he'll keep them rolling out. I don't think I have a favorite scene let's face it I read this one so fast my eyes have whiplash and for the record I have written a review(if gushing praise and no specifics can be called a review) for every book. Before this series I had written maybe 5 reviews in 50 years as an avid reader. Don't stop don't slow down keep the river rolling at flood stage please. For anyone who hasn't read these books yet. Grab death becomes her strap in and blast off for the ride of your life

I am shocked that I am the first to write a review but as soon as I saw on the Forum that the book was out early I downloaded and started reading.The story continues right along, hitting all the many different occurrences that happen with different characters including new to the story characters. I love that Michael writes this way and jumps around to show you all the action.I don't want to accidentally put in any spoilers so I will just say that if you are up to book 9 in the series this one is just as good. If you are just stumbling onto this series you must go back to book 1, if you enjoy that one you are set for eight more.

Ran across the Rise of Magic series and was intrigued, so decided to purchase all 16 books in the Kurtherian Gambit series. I then spent the next 4 days reading all 16 of them, then moving on to the Second Dark Ages and Trials and Tribulations series. This is a very entertaining and intriguing take on Vampires and Werewolves. I am eagerly awaiting book 17. And while there were warnings about the cussing in the book I found them to be hilarious. As far as military Scifi goes, I would easily rate this up there with some of the other major authors in the genre, such as John Ringo's Possleen War or Through the Looking Glass. Looking forward to enjoying the rest of this series, and the best part Michael Anderle seems to be a fairly prolific author so not a massive wait between books.

I've really enjoyed this series but I have to admit I hate what happened in this book. That's an extremely strong word, I know, but it's so true. I know these happenings are necessary for the story to progress but honestly it kind of ruined it for me. I still love the characters and the world the author created. I also love reading about the battles and tribulations the group faces. I just can't get past

the loss. I’m unsure if I’ll keep reading the series. Regardless thanks to the author for such a great ride.

Other than #1 that started a great epic story, this was by far my favorite installment so far. I found this one richer and more complex, evoking emotions running the gamut. At the very heart of this story is the creation of a universe that gives strong heroes that I can completely cheer on without any reservation. It is doing what I wish I could do if I had unlimited power and resources...vanquishing evil and building for the good of world -- without having to make political contributions, schmooze petty bureaucrats, or compromise convictions. We don’t have stories about heroes anymore ...everyone is dark, conflicted, long-suffering, trying to develop character, etc. Sometimes is fun just to cheer while evil is slaughtered, and right and wrong is crystal clear. Too bad there isn’t a real #wewillbuild. Thanks and keep up the great work.

OMG - I love this series!!! Fast paced and fun with a great story line and real, down to earth characters. I absofuckinglutely love the over the top, inventive cursing. I keep waking my husband up because I’m laughing so hard while reading in bed! Growing up in the military, us kids used to collect curse words. The 1st thing we asked any new kid in the neighborhood was " what languages can you cuss in?" My brother grew up to be a linguist in the A.F. and can now cuss in 13 - 14 languages fluently. I’m still jealous.back to the review - I found the 1st book for free on Kindle on Sunday, finished it in just a couple hours (I read very fast) and immediately bought the next 10 books. It’s Weds morning and I’m starting on book 8 so I came back to get the rest of the series before I get stuck somewhere with no internet connection and I’m out of books to read :) Keep up the good work Michael - this series is on my "keep to read again" list and you’re my newest favorite author (& I copy/pasted this review to all the books I’ve read so far) thanks for the wild ride - Karen
