This book pretty much just has questions on the various chapters. I was under the impression that

there was material you could read and study to supplement with the textbook and then do the practice tests to further enhance your understanding of the material. Seems like they could have done a lot more with the book in my opinion. But I guess as a practice for the state exam, it should atleast help you prepare. Would not recommend unless you specifically want more practice tests like the ones already in the textbook.

This Workbook arrived very quickly and was brand new like I expected it to be. This Workbook helps a lot with the Emergency: Care and Transportation of the Sick and Injured Textbook. Definitely recommend this workbook, this workbook has "Matching, Multiple Choice, True/False, Fill-In-The-Blank, and even Crossword Puzzles" this workbook also has Critical Thinking and scenarios on Ambulance Calls.

excellent resource for those studying. also worth the investment would be to get the premier edition of the book and this workbook is available online as an interactive test. You select the answers and click submit and it shows if your answer was right or wrong and what page number the answer can be found

This workbook was a nice accompaniment to the textbook. It is very comprehensive. The study materials are designed to challenge an EMT student as a lead-up to FISDAP testing. Sure, you could just read the text. But, repetition is the key on some of this material. I really found this workbook to be helpful in getting prepared for the standard EMT tests.

My expectations and the product description were perfectly met. I am totally satisfied with my purchase. If you need this book for a class or just to practice on your skills, this is a great, simple, and cheap way to go. Do it!

All the pages are written on. You just don’t sell people with poor quality and words all over the pages.

It was not compatible with my medic book.

I passed! Book was great with lots of materials that I will remember for life.I did these worksheets daily to increase my skills.
