This book was required for the class. It arrived quickly and in perfect condition. This book explains the areas of the family and how they all interconnect.

This book was not cheap and it is the most flimsy book I have ever bought. The pages were practically transparent and it appeared weathered for being brand new. I was definitely not satisfied with my order.

Great condition! Although delivery was delayed a couple of days, I am quite satisfied. Thank you!

Book was in great shape at a great price!
