Franko Maps Ltd. is known for producing the best travel, dive and snorkel maps, guides and fish cards for the Caribbean and other locations worldwide.

This map, which I ordered to simply familiarize myself with the general layout of Bermuda before I left, was an excellent addition to my trip. It gave me all of the points of interest upon which I did further research to create my itinerary. The front and back side are slightly different and offer a)great diagram of cities/parishes, beach/snorkeling points, ferries/bus routes and the other side, b)dive sites and detailed info of shipwrecks and tropical fish/coral you may encounter. I brought the waterproof/durable map with me everywhere I went and I'll be bring it with me on my next trip. By the way, at the major points of gathering, there are visitor centers with bus and ferry schedules and maps for free with detailed schedules and plenty of staff to answer your questions. I would encourage everyone to have a general idea how public transportation works and how to get to their destination because the bus drivers really do not have time (or seemingly, patience) to explain

directions to tourists :) It’s hit or miss but I wouldn’t suggest relying on the drivers if you haven’t don’t any research of your own.

Good map - wish it offered even more detail.

Great map - love illustrations.

A great guide and map. My grandson used it to find the best place for snorkeling!!
