Customer Reviews

I have grown up as part of the Afrikaner nation and always took a keen interest in history. This exhaustive work gives an enormous amount of context to the time in which I grew up, the events which unfolded before and around me, and left me with a much clearer understanding of the status and behavior of the Afrikaners then and today.My conclusion is that the Afrikaners are extremely resilient and most often wrong in the face of adversity, yet very adaptable and agreeable when the sailing is smooth. Today in 2014, the Afrikaners have no more collective goals to work towards, and have happily stepped off that path in favour of seeking individual goals. The vast majority are succeeding in their individual goals and have become exemplary citizens of the South African community.
