## Customer Reviews

Many teachers use ABC Books to teach different concepts and this one is especially good for use as a sample to show students. The pictures are bold and very colorful. --Ft. Worth ISD, Ft. Worth, TX

Darling book with several layers for different aged children. My grandkids loved the hidden characters.

I love the creative mind to think up all the ABC connections. Beautiful Pictures!

My grand-nephew loved it! It made for some fun stories about being in Australia!

Good packaging, good timing on shipment, product as described. I'm satisfied with the order, thank you!

This is a nice alphabet book with good facts about Australia. I would estimate it would be useful for 3rd - 5th graders. Nice illustrations.

Used as an intro to an art lesson. Good book. I can't believe they require a minimum amount of words. Crazy. They want an opinion and then ask for so many words. What are they nuts!

I read this book to my 4th grade students. They were thrilled with the pictures and very engaged with the content. A great instructional book about Australia as well as a fun alphabet book.

This book, advertised as an ABC on Australia. DO NOT purchase this book as a gift if you think it will be depicting Australia accurately. The research is mostly accurate, but any Australian would know that some of the depictions are ridiculous. Strine! Nobody I know refers to the English they speak as Strine, this is hilarious. The flag - 6 states and 2 territories does not add up to the points on the star and every Australian child knows this! Mob - although this is a large group of kangaroos, when a person refers to a mob, it is very rarely about kangaroos. This is THE most disappointing children's book purchase I have made. I wanted a book reflecting my country to give as a gift to friends to help explain Australia, what I found was some truth and some colorful pictures scattered with inaccuracies. It is disappointing, now I do not trust any of the other books in the Country ABC series, what is accurate what is not? I can't give someone a gift and then have to sit with them and explain - well this isn't really true!0 stars would be more apt.
