Customer Reviews

Animated PBS character Daniel Tiger helps readers tell time.Mr. Rogers-like (explicitlyÃ¢â ¬â •the show is produced by the Fred Rogers Co.), Daniel Tiger welcomes his neighbors, inviting them to spend the day with him and learn to use a clock along the way. A large clock face with movable hands is accessible through a large, die-cut circle in the upper-right corner of each double-page spread. The hands click and clack as they're moved around the clock's face, and the sound is peculiarly satisfying. Each hand has a different noise, helping children to differentiate between the two. Daniel and his family and friends do lots of things throughout the day, including

eating breakfast, going to school, running errands, eating dinner, and going to bed. The illustrations emulate the show's rounded, calmly colored style. Fans of the television show will be entranced. Daniel's constant engagement with readers will spawn busy interaction, and the fact that this book covers a whole day makes it an excellent read right before bed. A terrific resource for fans of Daniel Tiger and newcomers alike. (Board book. 2-3) (Kirkus Reviews)

Wanted to use favorite characters to introduce concept of time to our toddler.This book is cute and has a little clock he can play with to change the time as it corresponds with the story. Runs through some easily identifiable daily routine stuff that toddler/preschool age can relate to.Bought this to go with a Melissa and Doug Mickey Mouse wooden clock/shape puzzle and it keeps our little guy’s interest.Side note: Also got him an alarm clock that lights up when it is "wake up time" so that eventually when he’s older and waking up early on weekends he will know that he can play quietly and look at books until it is time for all of us to wake up.

Bought this as a gift along with a watch and another clock toy. This book was the perfect compliment to those items. It’s a board book so I liked that it’s going to last a bit longer than a paperback book.

Love

My granddaughter loved it and helping her to tell time

My son is OBSESSED with Daniel Tiger. We regularly use the songs to help him understand what is going on in his life. I never thought I’d love a show as much as I do Daniel.We have a lot of Daniel books, and this has quickly become his favorite. It doesn’t follow a specific show, but has parts of Daniel’s day. My son loves turning the clock, and the teacher in me loves explaining time to him even though I know he doesn’t understand it at 2. The story follows Daniel’s day and shows that different things happen at different times. We use Daniel’s morning routine, so my son could tell me the morning part.This is a must have for any Daniel fan!

My husband helps read this book to my son at night. We’re trying to teach my 4 year old the time and he’s starting to get bits and pieces. He thinks the 8 is 8 and not 40 minsÃƒÂ¢Ã â ¬Ã Â| So we have a little bit to go. Daniel Tiger are my go to books if you have looked around my reviews you’ll

notice I tend to buy them over a lot of books. Like I've stated before the morals Daniel Tiger teaches is why I keep going back to them. Fred Rogers legacy is also a reason since I grew up watching him as a kid.

It's a good book. The only thing is both hands go to the spot indicated. I thought it'd be telling time and putting the hands in real time. But it works for my son to read and interact with.

We ordered this book, the first book had hands that wouldn't stay in position and a new book was promptly sent to us.It's a fun book that shows kids how the hands move with different times of day
