This little book is a gem! I have used it the past 2 years for my children’s advent/christmas unit...it has tons of ideas for hands on learning via crafts and ethnic recipes. Book begins with a general introduction of the history of Christmas, then discusses individual countries. Addresses many European countries, the North American countries, and several Asian countries (Japan, China, the Philippines, and Thailand). Africa and South America are somewhat neglected being represented only by Nigeria & Brazil. Still a wide variety of cultures & customs are covered. There are also general Christmas themed worksheets in the back of the book. Copyright permission for classroom use is granted. Also lists additional resources for further exploration...My only complaint is that on p. 86 of my copy, there are directions and a diagram for a spider web ornament - the directions tell me to "Sew the web by bringing the needle up through hole 1, down through the center hole, up through hole 3, down thruogh center..." but my diagram is not labeled with the numbers. If anyone has the labeling pattern, I would appreciate it as my kids wanted to make these for their godparents this year.

This is an awesome resource for a variety of countries! The activities for each country are diverse, including books you can read, activities, and crafts, which are suitable for various ages. The included recipes are easily made. There are also "extra" activities in the back that are great to add to the list of activities to prepare for Christmas, when you want something fun more than educational. Overall, I have found this book to be my favorite resource for writing out my lesson plans regarding Christmas in various countries!

This book was the perfect gift for the little girl I got it for. She recently was adopted to the US from Romania and the photo her Daddy showing her opening it and her smile was the best thank you I ever got. This book not only tells of how Christmas is celebrated in other countries but also an activity and coloring book.

This is a nice book that covers a variety of different countries..its a great reference for teachers..the passages are written a lityle higher..I tend to paraphrase somethings

I teach K and this book would be beneficial for older grades. I would say 2nd and up. Some items were to complicated for K.

Not a lot of crafts for my Pre-Kindergarten bunch, but the information and ideas are amazingly wonderful! I can always look on Pinterest for easier crafts and recipes.

I teach Kindergarten and this book was a wonderful tool to help me plan holidays around the world for my class.

nice book
