Customer Reviews

This book was indispensible for my recent travels through Alberta. It contains detailed descriptions of all the best places to go, including some great small town festivals that I would of otherwise missed. The book also has many hikes included, mostly in the Canadian Rockies. I budgeted to spend around $50 a night for motels, and found that this book described many good choices in this price range but also includes campgrounds and more expensive places. Overall, I found it to be very current, not only for restaurants and the like but also coverage of issues such as overcrowding in the national parks, which I found an interesting addition.

This handbook was packed with great spots to stop. There were many places listed that the AAA guidebook missed, and all were fantastic. The book was sectioned well, breaking up different areas into day-trips. If you are going to Alberta for the first time, this is a MUST BUY!
