Synopsis

The introduction to the fourth edition of Philosophical Documents in Education asks the simple question, what does it mean to be educated?Ã Â That simple but profound inquiry is answered throughout the anthologyÃ¢â ¬â„¢s 16 chapters by both classical and contemporary educators, progressives, and philosophers. Driven by the idea that students can better understand and practice their profession by reading, contemplating, and discussing philosophical and historical literature, this collection of primary sources exposes readers to a wealth of ideas regarding teaching, learning, schooling, and instruction Ã¢â ¬â •Ã Â from ancient texts to modern selections.Ã Â

The timelines for the philosophers were helpful but especially the introductions given for each. Soft cover more manageable too. The shipping was decent--not super fast but on the quicker side.

Served it’s purpose!

Awesome book if you need it for the class or if you are into philosophical works. The summaries of the philosophers were useful.

This book was missing two chapters. I had to borrow a classmates book when we had to read them. Ugh.

The book was in an all right condition. The description said good condition, but the corners were bent and there was a lot of writing and highlighting in the book.

Order arrived several days before expected which is nice since this was for a class I was taking and already had homework to do. I will not have a problem doing business with you again.
