Customer Reviews

When people talk about visiting the Loire Valley, generally they mean the area that includes Blois, Orleans, chateaux and the like. That area is not included in this map, though how would you know when buying online? I'm so disappointed that I got a map I don't need. It is completely useless for me. And now I am out the money.

I ordered this map as we were driving from Paris to the chateaux of the Loire valley two weeks ago. This is the only choice that comes up when you search for Loire valley Michelin road maps on . Unfortunately, none of the area surrounding the towns of amboise and tours, where all the castles are located, is included on this map! I unfortunately did not discover this until my family and I were on the road in our rental car . So it is completely unused.

This map covers to just a bit east of Tours. Many castles and chateaus are not included on the map.

Much of the Loire Valley is not on this map.

Great map but it does not cover the whole river valley. I'm going to Amboise, east of Tours. It's not on the map.

Michelin maps are excellent, but one needs to be able to see the map before purchasing it. I will never again buy another map over the internet as only one of four maps that I bought actually covered the area where I was traveling.

Need this and 518 to do the whole Loire valley. Excellent maps

This is a very useful map that is essential for planning a trip to Loire Valley with good scale and illustrations.

detailed but easy to read "Don't leave home without one" William
