Sunset magazine (www.sunset.com) is the premier guide to life in the West, covering the newest and best ideas in Western home design and landscaping, food and entertaining, and regional travel in 13 Western states. Sunset Magazine has a circulation of over 1.25 million and a readership of 4.864 million.

Even thought I am originally from New England, over the years I have I generally enjoy most of Sunset’s gardening guides and this is no exception.The book is geared to the California gardener, not really to gardening in the "West". In that regard it was helpful for us (we just moved to Northern California) but it would be of little use to someone gardening in Nevada or Arizona. I am delighted with the information I’ve gleaned from the book as it is appropriate for our needs, but it would probably be helpful to have that referenced in the title of the book.

Beautifully illustrated book of ideas for western/dry country gardens. Lots on hardscaping, architectural design as well as the use of plants. Sections of fire-resistant plants, privacy and pets are especially appreciated, considering the region in focus. The section on the latter is thinner than I would have wished, but still very good. A fine, overview of western gardening with many interesting and practical ideas for planning, building and planting.

I am a subscriber to Sunset magazine. It is apparent that most photos in this book are taken directly from the magazine.It is a rehashing of the magazine, which is a good magazine, and I will continue to subscribe.If you are a subscriber, you don’t need to purchase the book.

Don’t know which project to start on first! Filled with Beautiful photos and tons of advice. Excellent reference book.

Good for ideas, and lovely photography. I'd like more nativeplants and gardens shown specifically for Southern California.

Great book full of great ideas, my husband is inspired. I can't wait to see how he does!

This book arrived quickly, perfectly packaged.. Thank you !I was expecting something else..Needed to get more how-did-we-do-this-types of landscaping but instead the book is beautiful pictures..Will have some great fans from those who want expressly this..

All Western Garden books are good and this is no exception! Still reading it...and I love ALL of my western garden books. I especially love all of the pictures and design ideas in this book!
