## Customer Reviews

David Barron has written techniques and strategies that can be used to improve his re-judgment.

When looking for a job, you often encounter a problem how to write it correctly. I learned how to adapt my resume for each particular job. The author has shown the key points that I should pay attention to and which recruiters pay special attention to. I liked the book with good examples, but I put 4 stars because I think that more pictures and diagrams should be used.

Wonderful book. Requires some introspection and serious work to do the exercises, but this book will help you find your life's work.

I have discovered one of the best books in its kind. What I get out of this book is much valuable than the money and time invested. My favorites, are the chapters that teach how to sell my skills and achievements. I know paper is important, but the person in the other side of the desk matters the most. Thanks for this incredible information. I highly recommend it!

An award-winning resume writing guide. Your resume is more than data. It is an ad that communicates why you are the best candidate. Here's how to do it. This may be your first time writing a resume; or maybe you're updating an old one for the umpteenth time. Either way, you'll want to use this guide. Taking the time to work on your resume is really important. The info on this page offers some tips & advice on how to make your resume the best it can be.

This book is a step by step guide for creating or updating your resume. Great practical tips for all, from the college grad to the experienced professional.

I am a few years into my first job and honestly never tried that hard with my resume and did not understand the importance of using key words and other techniques described in this book. Extremely helpful and a great resource!
