This hymnal is a joint publication of the Reformed Church in America and the Christian Reformed Church in America. It has both traditional and some very recent works. It follows the common lectionary and Reformed liturgy. We are members of the RCA and our church recently purchased it for our pew hymnal. Since we encourage our congregants to use the hymnal and sing the harmonies if they are able rather than "text on the wall" we love the highly varied hymns and psalms found in this book.It came out of an annual conference on music and worship that is held at Calvin College in Grand Rapids for worship leaders from all Reformed churches, especially the RCA and CRC, but it is open to any worship leader, ordained or lay, who has an interest to attend.

I love itlots of these songs I haven’t seen for a long time

I ran into this hymnbook and immediately liked it. The Christian Reformed Church maintained many

old favorites but has also included some contemporary music music from other countries, as well as dramatized some hymns. The best part of the book, however, is that there are guitar chords for every hymn. While the selection is different from my usual resource The Hymnbook, 1982, there is enough carry over so that it is familiar to other traditions. It also saves hours of work transcribing favorite hymns into guitar chords. Well done.

A wonderful Hymn full of so much more than just hymns. There are prayers, small devotions, and much more. I had to get this for a class but now use it in my daily devotions every day. My wife and I sing/read the songs to our son and go through the prayers together. It is a great family time. If you are going to use it for music, would recommend going to Office Depot or somewhere and getting its spiral bound for a few bucks because it doesn't sit open on a music stand very well.

This is an amazing hymnal with lots of other resources for worship in it as well.

The coil binding stays open on the page I want.

I already had one hymnal and wanted another for home.
