Customer Reviews

If you’re an adrenaline junkie or just want some excitement in your life, you probably won’t regret trying something extreme, like scuba diving. But before jumping into it, you should definitely learn as much as possible about the subject, and this book is the perfect introduction, since it provides pretty much every piece of basic information that you need to know as a beginner. If you ever intend to scuba dive, you won’t regret getting this book.

This guide has a lot of information about dive course. This book separates preparing into straightforward modules. It begins from the earliest starting point of Scuba Diving, so you can get incredible outcomes even as a beginner! This will in like manner edifies you concerning all the apparatus purposes of intrigue which any scuba jumper needs. It goes into a huge amount of particular information and biological components. To amplify your certainty and solace submerged, work on swimming and yoga for a couple of months paving the way to your plunge course. Helpful to them who want to learn this Scuba Diving.

I am planning to join a scuba diving lesson trip in Asia soon. I am excited and so I downloaded this book to get some basic instructions for this activity. There are so many informative content packed in one book. I learned what equipment I should prepare as well as how to prepare myself for diving. This book acquainted me with the different aspects as well as some tips when diving even without hitting the water.

This crash course is very informative and I learned a lot. I am going to The Bahamas this summer to learn and wanted to be well prepared before i get there. Fantastic book. Loved it.

As IÃƒÂ¢Ã â ¬Ã â„¢m preparing for my vacation in tropic islands, I found this amazing little book. Very well written, contains all the information that I need as a beginner. Goes through various important topics of scuba-diving which are essential for all beginners as well as advanced scuba divers. Great book!

Great introduction to scuba diving. Starts with some history about scuba diving, which was interesting, and then gets into all of the details necessary to get started. This book explains the required equipment, required training, and even the communication necessary when scuba diving. If your a newbie to scuba diving, this book will give you a great intro that will get you started. Great read!

Been hesitant to try it for many years, but after reading it, I have decided to give it a shot. The book is easy to read; it explains everything and makes it simple. I wanted to know about pros and cons and about some basic tips on how to behave underwater. Well, I got everything I wanted! Now I know for sure what are real things to be aware of and what are the myths! Thanks, Author!

This is an informative book that writes on the essence on scuba diving. I find it considerably well written and covers good range of subjects on safety, training underwater communication and equipment in an easy to understand way. This book is exactly what I was looking for and I am looking forward to applying the knowledge in my coming first diving trip!
