Customer Reviews

Ã Â Spanish for Dummies includes 3 CD disks and a 96-page book that lists the Spanish words and phrases taught in this program.You will find about an hour of recorded content on each disk.1. The objective of the first disk is to get you up and running with some basic words and phrases2. The second disk teaches you to form sentences on your own3. The objective of the third disk, is to prepare you to engage in everyday conversationsThis is an excellent program for beginner level students. After you finish this program you will be able to confidently:- Handle greetings and introductions- Ask questions- Talk about numbers and the time- Ask for directions- Get help at a hotel, the bank or a storeThe method used in this program also teaches by using a listening and repeating style of teaching. This is another program that you can use either when youÃƒÂ¢Ã â ¬Ã â„¢re home or when youÃƒÂ¢Ã â ¬Ã â„¢re on the road driving.Besides the very

economical price of this program, another thing that I really like about this program is that the topics that each disk covers are clearly labeled on the disk. For example, the diskÃƒÂ¢Ã â ¬Ã â„¢s label tells you what you will learn from track 1, track 2, track 3 and so on. I found this to be a very convenient feature because it allowed me to go directly to the tracks that contained the topics that I found to be the most challenging. This may sound like an obvious feature but you will be surprised by how so many companies have failed to include this feature.I will now leave you with a list of my favorite three learn-Spanish products available here at :1.Ã Â Easy Spanish Phrase Book NEW EDITION: Over 700 Phrases for Everyday Use (Dover Language Guides Spanish)Ã Â This is an economically priced, handy resource that easily fits into my back pocket. You can conveniently take it anywhere with you when vacationing in a Spanish speaking country in order to have more than 700 phrases in your Spanish-vocabulary arsenal. And unlike so many learning-Spanish books, there is also a section called "Computers and Technology" where you'll find Spanish vocabulary related to modern technology.2.Ã Â Learning Spanish Like Crazy Level 1 CDR - w/ Super Bonus Package - Learn Spanish & Speak Spanish - New & Improved for PC/Mac - Free Updates for 1 YrÃ Â is my favorite audio Spanish program because the program focuses on everyday, Latin American Spanish. This is a new and improved version with new content and new native Spanish speakers, and I find it to be much better than the previous version. The program is geared toward the foreign-language learner who wants to eventually achieve fluency in Spanish instead of someone who just wants to learn a few travel phrases. Compared to the other programs that I have used, this one does the best job at teaching you how to develop an authentic sounding Latin American Spanish accent. The program also comes with a very impressive bonus package.3.Ã Â 501 Spanish Verbs with CD-ROM and Audio CD (501 Verb Series). If you think you can accomplish fluency in Spanish as an adult without mastering conjugating Spanish verbs, you are only fooling yourself. This book is an absolute essential resource for learning how to conjugate Spanish verbs.If you have any questions about Spanish For Dummies, please post your questions below and I will do my best to answer your questions.

using this book to teach beginning adults at our church. Very good for listening to in the car or at home. Really like the way the Spanish speaker says words slowly and then repeats. One thing that is confusing.....switches from familiar and formal you to mainly formal. would be better to give both Ud and tu.

thanks we are just starting to use this i am sureit will help all of us thanks again have a nice day

Works as it should, as must!

Straight forward - easy to understand - quite affordable - recommended for language hobbyists and students learning language.

We used this for entertainment on our drive across country. Excellent instruction.

great audio books ...i listen on the way to work each day....and a paperback book included too

Pretty basic, not as catchy or fun as other tools I've used.
