Customer Reviews

I received this adult coloring book in a digital PDF format so that I could print only the pages that I wanted from my home printer and on my paper of choice. With that being said, I can not speak to the physical quality of the book itself (such as the binding, paper quality, etc). However, in reading the description of the physical book it is all the same designs but there are 2 copies of each design in the physical book whereas my digital copy only had 1 copy of each design.Some of the animals have a very "realistic" design style (such as the fish I colored and attached in the pictures below) but some of the animals are more cartoon styled. (I believe this is the trend with the mandala design). To my disappointment, the animals are not full page designs and in general lack any type of surrounding designs (trees, sky, patterns, etc) which results in large quantities of white space around the outside of the animals. The fish that I chose to color would be about the average size of the drawings but some were much smaller (like the deer with antlers image I attached below). I was also saddened to find that the lion design from the cover is not actually one of the animals in the book. Another item worth noting is that 4 of the animals come in the book with colored eyes (browns and oranges).Overall, fairly simple designs that are better for someone not looking to get overly tedious or wanting to spend all day on one image. This book would be great for starters or older children that are bored with the children's coloring books.I was offered this product at a discounted rate for my honest review.

I was very impressed with this adult coloring book. My daughter and I have started coloring a lot in adult coloring books. It's a relaxing and fun hobby to do together. We used gel markers to start the first picture in the book which was an ape. The paper is made of a great thick material. The best thing about this adult coloring book is that the backs of the pages are all black to help with bleeding. I tested this out by using a set of colored sharpies on our picture and they did not bleed through to the next page like several other coloring books we have done in the past. The animal pictures are really well designed and fun to color. There is a lot of attention to detail. I also like that all the pictures are on the ride side of the book. It makes it easier to have the adult coloring book lay flat when coloring. Also none of the pictures cover the entire page. This does make it easier to frame your pictures if you choose to. This adult coloring book is also a great value for fifty different animals to color. The quality is great and I would definitely buy more adult coloring books by this artist. In exchange for my honest and unbiased review, I received this animal mandala designs adult coloring book at a discount.

This has been one of my favorite coloring books by far I love the designs. Each page is complex but easy enough to complete in one sitting. I have nearly completed the book and will buy some of the other books in this series. One thing about this book is the paper is really nice with a smooth texture that takes ink really smoothly with full coverage without requiring going over multiple times. The pages are perforated so they can be removed and used as journal pages or framed. I use markers and unfortunately they bleed through the page so the reverse of the page is dotted up with bleed-through but there isn't much help for that. Also, the designs are all different but have similar design elements from page to page so the lack of variety in the details might not appeal to some, Otherwise I love the book myself and highly recommend it. I used a wide variety of pens - sharpies, color pencils and gel pens.

Purchased this book for my wife who loves coloring. So far this coloring book has been great. I was perusing a site and stumbled upon it, and figured it would be fun for her to color. The book is average size i'd say with a good number of pages to interact with. Paper is thick and higher quality. No repeating pages that I saw, as it should be, which is always refreshing. The book size is about the standard size of 8 x 11, not a tiny book to carry in a purse or handbag. It would fit great in a backpack or sleeve.The pictures have a lot of detail and the ink is pretty light between coloring areas. There were a few pages that did have heavy ink, I wasn't a huge fan of that but overall hasn't impacted my rating. We purchased he physical book, not the ebook. One great thing is that the animals have a pretty realistic design, looking a lot like the actual animals with some obvious coloring enhanced areas. Some are not as realistic but the overall designs are far better than others we've seen. The backs of the actual pages are blacked out so that your colors don't bleed through the pages.My wife has always loved to color, it relaxes her and helps her find peace. She'll put on a tv show or some music and just color away with the extra noise cancelling out thoughts. I'd suggest this book for adults looking at a starter book or even older kids. Really this book could be for anyone as the purpose is to color and most people can do that. Studies have shown that leisurely activities like coloring can reduce stress or pain. We would highly recommend this book to anyone who enjoys coloring.Disclaimer: I received this item at a discounted price. The opinions I have though about this item are honest and unbiased. I do not need to leave a positive review, however in this circumstance the product came as desired. The information and experiences I provide are my own, and may be different than another. I have been swayed in no way about my review. I hope the review was helpful in your decision to purchase or not.
