Synopsis

Majolica pottery is among the most sought after in today's art pottery market. Warman's[registered] Majolica offers collectors a comprehensive guide to this style of ceramics, complete with 1,200 stunning full-colour photos. Majolica pottery from Minton, Wedgewood, George Jones, Worchester and Lear and Chesapeake Potteries are represented in the 1,200 listings and colour photos of this extensive resource. Detailed descriptions, up-to-date prices and tips on deciphering fakes and reproductions assist collectors in accurately identifying a family heirloom or the result of several antique hunts. This is an essential guide for any Majolica enthusiast and an easy and detailed introduction for would-be collectors.

Customer Reviews

Mark Moran is an antiques dealer and author of several books on metalware, clocks, cookie jars, pottery, dolls and American and European furniture.

This book has a lot of good useful information in it. I have a small online store, and this helps in identifying everything. Great transaction!

The book was delivered in a very timely manner and in very good condition despite it being a used book.The pictures are beautiful and I did find a picture of the majolica jardiniere I had just bought

and I was very excited about that.But since this book was published in 2005, I'd like to know whether the prices estimated in the book have gone up or down. It needs an update.

My mom was an antique dealer and she always went to her Warman's for information. This Majolica book has clear pictures and descriptions. The only drawback, with it being an older printing, is that the prices are not as valid and more research would be necessary.

the pricing method,left alot to be desired the lumped together items priced as one lot,seemed lazy. To go to the trouble of putting the very professionel looking pictures and not goimg the extra time it would take seemed lazy. I understand the book is not up to date,but it could have a ballpark figure to each item.

This is my least favorite majolica reference. It's OK but there are others I'd buy first.

The book has lots and lots of pictures. But it isn't that relavant to what currently available. I'm intersted in some of the items, but...

If you want to identify majolica pieces, educate yourself on the background, or just look at the variety of beautiful pieces produced, you will enjoy this book. I refer to it often.

Alot of info.
