Customer Reviews

Erin and Destin have created a refreshingly no-nonsense guide to consulting interview prep. With a structured, step-by-step plan and the sort of candid advice you'd give a younger sibling, they take the mystery out of the interview process and prepare students to walk into interviews with confidence.Ã¢â ¬â ¢Lydia Kearney, former Strategy Consultant, MBA candidate, Haas School of BusinessBy including expert testimonials, firm introductions as well as mock-up case interviews and tactical tips, Whitehurst and Robinson have created a well-written and easy-to-digest guide that will

help candidates successfully prepare for management consulting interviews.Ã¢â ¬â ¢Robin L., Associate, McKinsey & CompanyAfter reading 20 Days to Ace the Case, I was delighted to be extended an offer from both Bain and BCG. The book was invaluable in helping me prepare for interviews by giving me a unique approach to preparing my frameworks which allowed me to really bring a fresh perspective to my cases. It really was the most valuable source I used in crystallizing the many skills needed to truly ace the case.Ã¢â ¬â ¢Peter Stilwell, VP of Academics for the Berkeley Haas MBA Consulting Club

Destin Whitehurst is the President of Consulting Interview Coach LLC, which provides case interview preparation and coaching services to aspiring consultants worldwide. While a strategy consultant, Destin advised clients across the United States, Europe, and Latin America. He also led undergraduate recruiting at two prestigious universities, overseeing the selection process for over 300 management consultant candidates. For more information, please visit ConsultingInterviewCoach.com.Erin Robinson is the Vice President of Consulting Interview Coach LLC. During her tenure with a top strategy-consulting firm, Erin served both corporate and nonprofit clients in the United States, Canada, and Latin America. In addition, she led initiatives for national training programs delivered to over 400 new analysts each year. For more information, please visit ConsultingInterviewCoach.com.

I wasn’t familiar with a case interview prior to reading this book, but now I feel like I’m better prepared for one if needed. Beyond the case interview, I think this book gives some good building blocks on how to solve problems (after all that’s what consulting is, right?). I’ve seen and used many of these frameworks professionally without knowing them, specifically the internal/external framework. I’ve picked up a few more that I think will be useful as well. I received this product for free in exchange for my honest and unbiased review.

This is a great book for those who are looking to find a new job.It is very good to have on hand after reading this book i actually feel like i could go into a job interview and do a greta job at the interview.It has alot of great information and it is a very well researched book.It has alot of case reviews and different situations that can come across in an interview and shows great examplesI received this product for free in exchange for my honest and unbiased review.

As someone who has taught Building your IT career in colleges, I find this book to be a helpful tool

in that arena. I liked the book, however there were some drawbacks to it. I felt it was too isolated to one career choice and with some minor modifications could have been broadened to cover a wider arena of career choices making this book marketable to a larger audience. Secondly, the book seemed to be focused on interviews. What about what tools you bring such as your resume, what should that look like? What about body language and technique? On the brighter side had extremely useful information which would help a lot of people. Because it was more tailored to management consulting only ÃƒÂ¢Ã â ¬Ã â œ I gave it four out of 5 stars.I received this product for free in exchange for my honest and unbiased review.

The topic of this book didn't pertain to my line of work so the topic written about seemed to drone on for me. The layout however would be very helpful for someone looking to consult for a living as the book was laid out in a timeline. The timeline would help any potential job seeker in this field to know when and how to prepare for that all important interview. I received this product for free in exchange for my honest and unbiased review.

Just thinking about consulting interviews made me anxious. I don't have a traditional business education and was intimidated by case interviews. I checked out other consulting prep books, but found them overwhelming and difficult to digest. 20 Days to Ace the Case provided me with practical tools and a clear plan of action for the days leading up to the interview. Following the steps in the book, I walked into my consulting interviews prepared and walked out with an internship at McKinsey & Company!

This is an excellent book for people who know that they have to face a case interview, are looking for a new job, and need some practice in learning about mock interview techniques. I think this is an excellent read! It is a book full of great advice! I like the cases presented as they cover a multitude of different fields of work, and can give a candidate a good exposure to existing issues. A lot of the times books like these will seem just a lot of fluff, but it is not true in this case. It seems to be a well-researched book, with lots of real life examples. The book will guide you through the process of acing the case, and you will be able to understand the steps you need to take to achieve this.I received this product for free in exchange for my honest and unbiased review.

The best thing about this book is the title. It tricks you into thinking 20 days is shorter than60 hours, the amount of time experts like Cosentino (Case in Point) and Ohrvall (MBA Case) sayis typical to

prepare. The structures are the profit and loss formula and internal and external.Minimum number of practice cases. This book is for high school students. A total waste of mytime. Why does every former consultant think theyÃƒÂ¢Ã â ¬Ã â„¢re an expert?

This book provides the perfect structure to support candidates to prepare during their last 3 weeks before the case interview. It includes expert testimonials, firm introductions as well as a multitude of practice cases that are very similar to the cases that candidates receive during consulting interviews around the world.
