Customer Reviews

Western Backyard Birds, An Introduction to Familiar Urban Species, is a must-have, reference guide for beginners and experts alike. With helpful tips on how to attract birds to your yard, you'll find this an indispensable guide to identifying a multitude of backyard species. The Pocket Naturalist(tm) series is an introduction to common plants and animals and natural phenomena. Each pocket-sized, folding guide highlights up to 150 species and most feature a map highlighting prominent sanctuaries and outstanding natural attractions. Each is laminated for durability. (31/2 X 81/4 folded, opens to 22 X 81/4, color illustrations, map)

Zoologist Jim Kavanagh has made a career out of introducing novices to plants, animals, the

sciences and world cultures. In addition to creating over 500 simplified nature guides, he has also authored guides to languages, cities and outdoor skills. An avid traveler and backpacker, KavanaghÃ¢â ¬â„¢s path has taken him around the world to many remote destinations including the upper , Africa, Australia, and the Arctic Circle (and this is just the As). He is also the author of a series of state-specific guides to common species and natural attractions and a children's book on evolution.

I am new to the "wild bird" scene. We have a feeding station for the birds right outside of our family room windows, where we can observe and enjoy our featherd friends. I am a beginner, and I wanted to be able to identify the type of birds coming to our feeding and nesting stations. Books are fine, but many times you need a quick reference in order to identify birds. So this guide is perfect. Not difficult to keep on hand, easy to reference and the protective coating protects the guide from every day wear and tear. It is far more enjoyable now that we can recognize our feathered friends. It's perfect for all age ranges as well. I recommend it highly.

Good quick reference.

I think I need a commission for all the people I have had purchase this great guide. So quick and easy to open it up and identify the birds in your yard or while out and about.
