JEANETTE WUMMEL is a graphic designer and artist based out of East Lansing, MI. She specializes in creating whimsical art that is fun for all ages. Her books include Zendoodle Coloring: Playful Puppies and Zendoodle Color-by-Number: Sea Life.

I really like this book. It’s a great change having the colors already chosen for you. This book is one of my favorite books.

This book was a great purchase! I completed one page in marker and it was gorgeous. I am yet to use the color pencils. My only complaint is some of the colors are a bit to close in shade and could

not be found within my marker collection. I will be purchasing more from the Zendoodle line.

One of the BEST Color By Number Coloring Books I have.Huge coloring book with lots of cute images...I really really like this one.I'm hooked on Color By Number Coloring Books and was happy to see that this one was so great.I have about 40 Color By Number Coloring books and this one is in my top 5 fav....

This was a swap in one of my coloring groups. Received posted a pic and said she loved it!

AAA+

exactly what I wanted

Color by number are my favorites, this series is a nice addition to the ones available. The color key has 36 colors and they are named to make it easier to match up to colored pencils or markers. Pages are single sided and perforated. The paper is not too thin, but if using markers may bleed thru a bit. Pictures are varied and aren't too simple nor too difficult. Most I think could be done in one sitting. A really nice book, I will buy the others in the series that are scheduled to come out.

Got my book today - illustrated by the very popular and talented Jeanette Wummel and I'm very, very pleased with it! I do enjoy the occasional color by number book and this one is a 5 star coloring book in all ways.The paper is a very good, heavy grade, the pages are perforated for easy removal and are single-sided. The book is well set-up and even has a color chart in the back of the book that flips out for you to be able to see while you are coloring any of the pictures. And of course, the pictures are all in true Jeanette Wummel style, adorable characters and in this book they are set in fun underwater themes.All together, this is a great book, for colorists from beginner to advanced and I'm very happy with my purchase! Can't wait for the other color-by-numbers books that are also being illustrated by Jeanette and are being released in the near future!
