Anne began her career as an elementary school teacher and is the author of more than two dozen books for young children. The author lives in Brooklyn, NY.

Good book in terms of content. However, the quality of how the book was made could be improved.

Used with on level and above level reading ability students in first grade to teach research and text features. Students totally engaged!

Great reading & learning book for youngsters. Bought for my granddaughter’s 5th BD & she is still enjoying it.

Nice little Nat Geo book for young ones

I’m a junior high sdc teacher and this is a great series for struggling readers that is high interest and age appropriate. Great photos that national geographic is known for and some interesting facts that I enjoyed. Keep making them!

Cute pictures of monkeys. The kids enjoyed this nat Kids book as well as all the other Nat Geo animal books. The pictures are always so up-close,clear and colorful!

Like: Vivid colored pictures, presents all types of monkeysDislike:Since the issue covers so many different types of monkeys (i.e. dinosaurs issue), there is a shorter ’story’ than other issues (e.g., tigers issue).

Was purchased for a book report for my 6yr daughter, she loved the book and the pictures.
