too thin a book, the content can be found easily in Internet. Printing from home printer can produce a similar "book". It is like a $2 magazine sold on street side.

I started this book one day, and couldn’t put it down until I was finished! EXCELLENT!!! You two did a wonderful job! You addressed all of the important issues that we deal with, and in such easy to understand explanations and terms. I’m a former nurse, who has had Hepatitis B for 20+ years now, and this is the most concise, easy to understand printed material that I’ve ever come across. Thank you so very much! ... Again, thank you for such a wonderful job well done!
