A beautiful look at Disney parks across the globe. Great gift for any Disney fan!

Great book of photos of Disney Parks around the world during and after parks hours.It gives a glimpse of what is done to keep these parks an icon. The book I received (used) was in great condition.Some wear on the slip cover, but pages were perfect. seller’s description was very accurate.

great pictures of Disney parks from around the globe perfect coffee table book hard to put down seek it out

Brilliant book

the book was delivered in good condition, and much quicker then predicted. (european delivery)the book itself is a joy if you love to dream away about Disneyparks and a very nice way of comparing some of the world wide parks.

As was once the case with the British Empire, the sun never sets on Disney's theme parks, with little havens of happiness (and profit) around the world -- California, Florida, France and Tokyo, with more just opened (Disney Sea, also in Tokyo) and more coming (Hong Kong).What this book does, like all the other "A Day at/in..." books, is give you a 24-hour time span. At the same time, it jumps from park to park, showing different aspects of different parks, at different times of the day or night -- with guests streaming in, cast members working, resting, smiling or laughing (if you're looking for a critical eye towards the Disney empire, this is not the book for that), or simply landscapes framed by the good work of Mother Nature and the photographer.For those who haven't traveled the world (and that's most of us), it gives you a detailed view of what the rest of the world sees when it looks at Disney, noting the differences and the similarities.And finally, if you just love the theme park(s), this book will help keep those memories fresh. It works for me.

I don't remember where I got this at, but even at cover price it's a GREAT book. If you love Disney parks, GET THIS BOOK!! Yes, it's mostly pictures, but being able to see all 4 castles on one page or the differences between the Haunted mansions is really cool. Not much reading, it is mostly pictures. A great coffee table book. Keeps you dreaming/ remembering until the next trip.

Drink in the sights with this great book. It's not one you would buy to read in detail about the parks as it is 95% photos, but what great photos at that.If you like the Disney parks, you will love this book.A simple review, for a simple but superb book.
