Customer Reviews

I already have a copy of the Quran in English, and a book that describes and praises Islam and its history. I wanted one from the opposite angle and this book is clear, authoritative, and full of further reading (not all biased). Obviously well researched; obviously not even-handed (neither expected by me nor claimed by the author). I'd call it a solid beginning for anyone wanting to understand the negative view of Islam, with a rich roadmap for further study in that direction.~"I like to be open-minded. That's why I can't remember anything!"

I love this book because the author has the guts to speak the truth as he sees it. No political correctness here. And, as I read it, no exaggerations either. Recommended reading. If you can still find it.

a quick and easy guide to a dangerous religion. Finally the Western side of the story of the Crusades.

An informative look at what cannot be discussed in public channels without condemnation and bullying by the PC police.

Robert Spencer is an expert on Islam and has written several books on the subject, the latest being 'Arab Winter Comes to America'. The Politically Correct Guide' is an essential primer for someone who wants to learn more about the subject, well worth the cost.

My husband found it very informative!

Robert Spencer does it again.. Well researched and documented truth about Islam.This book is a wake-up call to all peek who love freedom.

you'll learn more than you want too.
