Customer Reviews

Book by American Heart Association Staff

This is a very old version of the book. I could not use it in my class, because it was so old.

nice condition

this was an excellent find, I could never have made it through nursing school without this fine book of high knowledge

Yes the book satisfied my expectations

This book sums up all the skills and knowledge needed in order to perform and recognize the need for CPR by the layperson in the field. CPR is most effective when initiated within 4-6 minutes of a persons collapse and it is imperative that people know how to perform CPR until higher medical training becomes available. This book teaches and explains the roles of the person initiating basic life support (CPR).
