Customer Reviews

This book is a wonderful walk into the past. My granddaughter and I will have many hours of fun "playing".

Pretty cheaply made, not great designs. Better ones on the internet that you can print yourself for free.

The "cut and assemble" series are meant for an older child. This particular one is NOT particularly hard to cut with good sharp scissors(but not blunted little kid scissors). There are no dolls, only furniture, in this one, with one small butler, so I am baffled by the critique of the "dolls" in the one-star review.

I didn't like this book....it was way too hard to cut out the paper dolls and they were very fragile. THey break too easily
