Customer Reviews

I completely disagree with "A Customer" who posted on 8/15/2002, I thought the ideas in this book were great! Everyone creates on a different level and she gave some very good ideas in which the patterns were true to form. I used many of the pattern templates in her book and although I didn't always use the materials she suggested, the end result was still awesome! I would completely recommend this book to any and everyone, whether you're a professional miniature hobbyist or a beginner.

Purchased this copy for my sister...I bought this book when it was first published about 20 years ago...such a fantastic resource fox those who enjoy making their own dollhouse furnishings...detailed photographs make the supplies and projects practically jump off the page...beautiful, full color photos and charming text make the book a joy to read! I am thrilled to have found this used copy in perfect condition so my sister can own this treasure, too.

I am a beginner in the miniature hobby being a furniture recycler so I am not new to furniture concepts. I purchased 3 books. One came I was disappointed. This is book two. There are a few

projects in here and many ideas. I have flipped through this book several times and I plan to use some of the ideas I found in here. I like a lot of things I saw. The dolls though. ugggh. terrible. LOL. so out of place. but I did not get the book for the dolls. I will update when I do some of the projects so I can tell you if they are good or not. For now I am happy with the book.I

I found a lot of good ideas in this book and refer to it often for inspiration. Some of the items are too expensive and I like a lot of do-it-yourself ideas, but this is a good starter book for dollhouse affecioniados.

This book even has good ideas for your home as well as tour doll house! A lot of interesting projects are presented'

Very nice book. If your working on a miniature house this is a good book for ideas on furniture and accessories.

Good book

Someone needs to have a Modern day dollhouse book, this is great but all out of style.
