Customer Reviews

Book by Davis, William, List, Caroline, Forder, Nick

I liked looking at the projects and the how too’s and pick up a couple of "ah-ha’s" in reading. However, the projects are more advanced and not for the early beginner mini modeler; but still a good reading book.

This book had many ideas I never would have thought. I hope my friend(that received this gift) was as impressed as I am.

this is a MUST have book if you are looking to decorate the exterior of a dollhouse !! you definitely wont regret buying !

Very good reference book for anyone making a dollhouse, BUT, in MUCH smaller than listed here page count wise - listed as 2425 pages - WAY smaller at 159 pages, including the index, glossary, etc. A lot of good information in here on completing the exterior and the interior (roofing, flooring,

exterior wall finishing, etc.) and some phenomenal pictures of some magnificent houses. Even though It is a smaller book, I am very pleased and would recommend to anyone who wants to add some very personalized (non-kit) finishing to their doll house.

Got a squeal of approval from the dollhouse maker.

Great dollhouse. Gives great ideas and How too’s.

perfect conditionThank You!

This is a great book! It lives up to the title in that what it is named is that it is exactly what it is about. This book covers a variety of techniques for decorating your dollhouse. Painting, stucco and using small photos to make an engaging print room is one of my favorites and just to name a few.I loved this book so much that I bought a copy for my shelf. This is a book that you’ll refer to more than once, whether in casual reading or for inspiration. It is chock full of detailed color photos to engage every reader with step-by-step instructions to make the ideas a reality in your dollhouse or diorama.
