Customer Reviews

"Finally, a guidebook aimed at the forgotten canoeist: families, bird watchers, solo adventurers, seniors, and average human beings who don’t need to run rapids or mount an expedition to enjoy their paddling experience." --Canoe Magazine "I read Quiet Water cover to cover. It’s packed with delicious nuggets of lore and wisdom. The writing is lively and informalÃ Â¿. The Appalachian Mountain Club has outdone itself." --Worcester Magazine "For avid canoeists who prefer calm lakes and rivers, this is a great book, one that I wish was available for every state. The locations described are so peaceful that you tend to forget that you are in one of the most populated regions of the country." --Travel Books Review

we live in broad brook, connecticut and this is the first year we've had kayaks. in the early summer we met a woman on the scantic river near the somersville dam and she recommended this book. best tip of the year. there are so many great paddles in here that you'd never know about just by looking on a map. we'd been driving around, shooting in the dark, and mostly being disappointed by what we found. every paddle we've taken out of the book has been excellent. can't recommend it highly enough.

Fun book to have in your car for random and impromptu trips

It is the bible for us quiet water paddlers. My only problem is that I keep loaning to friends who never seem to return it. This last order of two copies makes my fourth and fifth copies of the book...

Another great paddle. Others have borrowed this book and then went ahead and bought it.

I still have yet to explore most of the rivers, but love the format complete with maps and interesting info.

Love these authors. Great book to Pick up and choose a place for the weekend paddle. Need to cross reference directions.

Great reading so far! Its winter so I can't launch yet though. The directions on local spots seem accurate though. Can't wait to resume paddling. Ill update stars once I use the guide

It could have been more comprehensive as it does not include all available water worth paddling in the areas listed.
