Amazing! I dug and dug for information from my niece about what she wanted for Christmas. It was coming down to the last minute when her dad told me that he had noticed she was interested in horses. Since it’s so close to Christmas I was desperate to find something so I quickly did an .com search for ’horses’ and found this book. I didn’t know what to expect but I was desperate and the price was right so I bought it. It arrived right on time and I was so pleasantly surprised I could have squealed! I would have paid twice what I paid for this book had I known how high the quality was. I love horses too so I spent a lot of the time I had allotted myself for wrapping to browse through it and it was hard to put down. The photos are absolutely gorgeous. The paper is very high quality and the size is big enough to be considered a coffee table book. Just a couple of days ago I had no clue what to get for my niece and now I am thrilled to know I’ll be giving her what is sure to be a treasured book for her library for years to come. I would give this six stars if I could!

Having practically grown on the back of a horse, I am delighted. Unfortunately for me, the book is a birthday gift to my niece. She has a horse that she finagled to bring with her to her university. Like me, she has loved horses all her life. I feel sure she will be wowed!

This is a good "coffee table book", especially if there is a horse lover in the house. I purchased this as a gift, and it was greatly appreciated by my horse lover friend. It is beautifully illustrated...a book someone would enjoy browsing through from time to time when relaxing. A good purchase!

I can’t even put it into words on how beautiful and outstanding this book is. The history of the horses is amazing. I thought I was in school learning about horses. The history has been told well of these horses. Honestly, I have learn so much about horses. The pictures are incredible and I do mean incredible. You will be proud to have this book as a part of your library.

Excellent reading for anyone who loves horses. Reading for all ages.

Bought this book for a friend who loves horses. She was thrilled and enjoyed the book very much. Beautiful pictures, large pages, quality throughout.

My daughter was extremely happy to get this for one of her Christmas presents. It is obviously above her reading level being that she is six, but she reads it anyway, and then at night we read a portion together. The pictures are truly works of art! For anyone with a love of horses, this is a great one to add to the collection.

I have owned several similar books on the picture of horses, and I have only three words to described it: IT IS GORGEOUS!.(although I will be happier if there are more information included in this book, but anyway this book is just pure beauty!)
