Customer Reviews

This soft-bound book is exactly what it looks like. Hundreds of pages of TP formatted questions and answers. I was looking for science questions to use for my class and these cover such a wide variety, it is amazing. It's the TP without the board game! I have the kids form teams and use buzzers to give it a real "science bowl" type feeling and they love it! Some of the questions/answers will be for those out of high school, but there are enough science questions to entertain my high schoolers. If you like TP, want a portable version, without the actual board game? This is what you want. Great value for the price.

I have seen a couple very negative reviews, but I am a big trivia buff, own many versions of the game, and the book is a great way to kill some time. It Stays in my car for traffic jams and road trips. Easier then finding trivia on the phone. And so far it hasn't dissapointed. My only issue. Very minor. No external way to see where the different subjects are.

My family has been draggin the box of cards around camping and on car trips to quiz each other

and play without the actual board, just as a way of competing with each other and proving what each of us really knows.... this is much more convient! All the categories of the regular game are there, it's well organized so the person doing the reading can be mixing up the topics and still not lose where they are in the book. And because the questions are on one side of the page and answers are on the other the reader can be playing right along with the rest of the group!

Fun idea! good to take on trips...exactly as described.

It's thicker than I thought . Heavy to carry in a backpack!

Arrived with the cover torn, and there are a few incorrect answers in there.

This book is so much fun and in great condition! I bought this book for my Senior's Brain Fitness Class and boy do we have a blast with it. This book is in great condition at a great price. Shipping was fast and on time. Very happy all around, would buy from you again, thank you!

I work in and Assisted Living Facility, I am using this book for one of my activities. The residents are loving it!
