Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

There's a fair bit of Hank Williams in here and a few Willies Nelsons, two Buck Owens, a couple of Johnny Cash, but over a third of the songs are 70s and 80s Country Pop songs, and there's a BeeGees song in there! . If you're looking for a good collection the real classic country of the 50s and 60s, this ain't it, buckeroo. Of course compared to what passes for Country today, it's not bad. ;-) Luckily I only paid a buck plus postage for my used copy.

Yes, I agree with one review that the songs are oversimplified but, some that purchase the book aren't great guitar players. This is a book that will compliment the Learn & Master Guitar course even if you are only three or four lessons in. It is great practice for finger position and timing without having to pick the finger exercises or simple songs over and over. It provides enough diversity to keep the beginner interested. When you have advanced in the course you will be able to do your own variations of the songs from simple melodies given in the book.

Wife loves the book. Has many of her old favorites and some of mine too.

My daughter is learning to play the guitar and she finds this book easy and filled with so many country songs she loves. Thank you.

I like how well the songs are reproduced with melody and chord patterns that are mostly within the grasp of guys like myself who regret they didn't pick up that gitfiddle 30 yrs ago. We'll never be ready for prime time but there is plenty to learn and play for our own enjoyment.

Don't know yet. I am able to do some of the songs and some I do not know. I must go farther back than some of these songs.

This book contains lots of great classic country songs. They are written for beginners. My only complaint is the somewhat lack of instruction on the finger picking techniques. Overall this was a great book to add to my guitar book collection.

good book very informative although difficult to continue playing a song when not on same facing pages great selection of music
