Synopsis

A young boy faces the end of his life, born a genius, gifted with an incredible memory and a passion for knowledge. As he takes his last breathe his life flashed before his eyes , from an early age he had been like a sponge soaking in all the knowledge around him, science, history, culture, literature, and even military strategy he absorbed it all.But as his life was coming to an end he scorned all his knowledge, what was the point of knowing everything when you werenÃ¢â ¬â„¢t even able to protect yourself or the ones you loved.As the boy closed his eyes for one final time,he laughed at how blinded he had been about the world and people and thought that if there was indeed a next life he would obtain power, power to protect himself and his loved one. And so this marked the end of his life, but for some, the end is only the beginning

Customer Reviews

Wonderful story. Like watching a 4 film Chinese movie. I am very very satisfied.I am big fan of fantasy writing, and the author’s imagination has fully satisfied me. I acknowledge the grammatical errors, but I place more importance in the entertainment value.I wish to thank the author for the obvious work he spent in this, and I urge him to continue his work.

Dragons soul reminded me of coiling dragon and blue Phoenix. Kicking off with the main character zhangs reincarnation and having a second chance to make something of his new life. If you are in need of a great book this is the one for you.

A fun and thriving story. Many fights, battles and victories to be had. I really enjoyed this book and am sure to get the sequel. I recommend this book very much.

Even though there were errors, this book kept me wanting to know what happens next. The author also did a good job with the length of the sample. It was enough that i felt confidence in my purchase. So downloading the sample is always a good idea

Typing errors typing errors and look more typing errors book is great but towards the middle of the book there is a huge amount of typing errors I don’t know if this is the author’s doing or maybe it got corrupted during file transfer because quite frankly I can’t tell either or however I will be rating this as an excellent book if he can fix those errors

Great plot. The story has a little bit of everything in it and you can’t help but fall in love with the characters. Look forward to reading the next book.

I enjoy the work you’ve done, however the manner in which I had to read it was an obstacle. The grammar was quite poor at times and you rushed from grand scene to the next at others. Perhaps spend some time with a fluent English speaker on this book and it will be much better off.

This story was like a run-on sentence. It starts off fairly normal and exciting, but soon becomes confusing and trite. The amount of grammatical errors is overwhelming at times. Words not completely typed or misused. The story just kept getting weirder and weirder and lamer and lamer. I really felt like only the first quarter of the story was refined.
