Synopsis

It is often said that it is impossible for an employer to fully comply with all of CaliforniaÃ¢â ¬â„¢s employment laws. They are just too numerous and too complicated. They are frequently changing, and rarely for the better. There are so many traps for the unwary. Unfortunately, this perspective is mostly true. California Employment Law: An EmployerÃ¢â ¬â„¢s Guide is written for those who must contend with employment law in California as part of their work. This includes employers based outside of California but with employees working inside the state. It is written primarily for business people and HR professionals, not lawyers, although in-house counsel and lawyers who practice outside of employment law will find it useful.
