this is a very good map. im going to get it laminated so i dont have to worry about water damage if and when i have to use this map. its great by focusing on heavily populated areas like Cleveland, Dayton, and Toledo and ect. the only ding i found with this map is that it mainly focuses on roads. it is very simple to read which is a plus but i was looking for something a little more detailed to use in my BOB. so i have to mark my own locations on the map of near by water sources, food, gas, and other survival locations. overall great map!

I would have preferred the entire state to be on one side of the map.

Not super detailed but detailed enough. Tried to teach my mom how to navigate with her phone; it didn't take. I got her this just in time for her birding trip to Black Swamp Bird Observatory.

They are good quality maps. Most recent I could find. Dated 2010. Sold on at a lesser price than at land bookstores, so do the math. And I don't belong to that big auto insurance company that gives you maps and routing, so this was the next best thing. Use Google for routing and get the state map here to make sure you are where you should be OR that your navigator is taking you correctly. (Ours made a few mistakes--we were heading south and it adamently wanted to take us north).

There's not much to say about a map but it's a good map, has helped me find my way around the state.

Just what he wanted

Good map and worth the money.

Nice
