Customer Reviews

I have a budding history nerd (9 yr old) and these are absolutely perfect. I have a graduate degree in history and not only am I surprised at the level of detail these "who was" books go into, but I have also learned a thing or two. They also don’t just sugar coat the rough parts of history or try to feed you a slanted view. These are the best history series books for young readers that I have come across.

These are great books. All of the Who Was books are excellent for young readers. My daughter gets very excited when she can teach us a little something about history and she seems to truly find things interesting. I think this is a great read for grades 3 and 4

We love all the Who Was books (and the Who Is, and Where Is, and What Is, and all the others). We have dozens of them. They are quick reads with short chapters, big font, and lots of pictures. They make a great addition to our homeschool library and thry are very educational.

Bought this for my 6 yr old great nephew who is a huge Lincoln fan- he was not disappointed. I can't add much more detail- she thought it was nicely done, he loved it, that was what I hoped for.

Love it. I have read several of the "Who was" books to my kids. Then they read them on their own a year or so later. GREAT BOOKS!

Perfect for my eight year olds book report.

A popular book in my class library.

I am happy with my purchase
