Customer Reviews

ItÃƒÂ¢Ã â ¬Ã â„¢s absolutely worth for buying. There are a lot of recipes in it which are very mouthwatering. There details are perfectly described also. I highly recommend this book even if you donÃƒÂ¢Ã â ¬Ã â„¢t want to infuse marijuana in your food. This book is just great.

It seems that there is nothing that you cannot add cannabis to. Once you have the basic ingredients, it is simply a matter of how much you want to use and how many dishes you want to use it in.

The images in the book makes the recipes more desirable. I always like having a visual in my head before I start preparing a dish for the first time. When I get cook books without images, am usually unsure of what am preparing. As a matter of fact, I only am satisfied when it tastes good based on my own judgement, or else, I would think it I didnÃƒÂ¢Ã â ¬Ã â„¢t get it right.Having the image in mind always helps me to be sure I make it right. Nice book.

This book is really benefiting me by the recipes inside and I just loved making these recipes. These recipes are tasty and they can make me high too! I would definitely love to read more from this author.These recipes are very tasty I must say that. Cannabis infused cooking is not that bad. I just loved these recipes. This is the best cannabis cookbook ever.

I never thought I would say this but am beginning to look at the marijuana and hemp from a different perspective. The writer made this book and sounds really convincing that these things should not be blamed for the actions of the others who used it.It is interesting how many things one can make with them. Am so loving this book right nowÃƒÂ¢Ã â ¬Ã Â¦.

I purchased this book so as to be able to stay high most of the time; smoking cannabis should not be the only option. Am grateful that this cook book came up at the time I needed it most. I would use this medium to encourage cannabis lover to purchase this book and try out the different trick to get high.

The author did a great job in first setting up the basics by explaining what ÃƒÂ¢Ã â ¬Ã Å“weedÃƒÂ¢Ã â ¬Ã Â• is and why most regions who did not make it illegal where right not to do so.I like the writing style of the author and how (s)he was able to make it feel interesting in a slightly funny way. It is a good book.

This book has exposed me on how I can use cannabis effectively to make delicious meal that would make me feel great. I am eager to try all of the recipes in the cook book. But I never thought that any cook book can be this much good. It has good directives on how to make each meal.
