if you collected baseball cards as a kid, this is the holy grail bible for you! ever wondered what cards you didn't have looked like? now you can see, and if you still collect, this is an easy reference to search your cards out with. This book is huge and must weigh at least 20 lbs. if you are a card collector, or use to be, this is the greatest book you can have.LET ME ALSO MENTION this is so OUT OF PRINT, that if you sleep on getting this book, you may never have a chance or pay over $100 DOLLARS for it in the future.

The pictures are very small and the writing or descriptions of the players required a magnifying glass for me. Followed by a headache

Great, honest and just a super experience!! Thank you

very good. fast service. get to see my favorite baseball payers from the 1950's thru the 1980's. very great book.

Nice book, glad I purchased itI wish each card had the back with it as wellBOOK ITSELF IS A 4 STAR; it would be a 5 if it had the backs of the cardsOverall purchase only 3 stars because previous owner must have smoked and it is hard to get rid of that odorI keep it in a large ziploc type bagIf that is important to you; email the owner and ask them if the item was ever exposed to (cigar)ette smokeNow I need a book like this from Upper Deck

The book is what I wanted but not the book I ordered. The cover was damaged and not in very good shape. The front and back were in bad shape. The inside of the book was fine the cover was just in bad shape. This is my first time ordering here and was not very impressed with the quality of the book and for the money I spent on it. The pictures I saw showed the book in great condition but was very sad it was in bad shape on the outside. Way to much money for the quality of the book.

This book shows the front side of every Topps baseball card that was created from their inception in 1951 through 1990, when the book was published. It also includes the "Traded Series" for those players drafted or traded during said year. Each year has a section of what happened in the season during said year, and has a quiz. The quiz asks a question, and the answer is told in the form of a number, which correlates to a specific players card number for that year. This book is a joy to have, especially at looking into the past and seeing the players of yesteryear. The book is heavy, as it is

almost 11 pounds, but it is well worth it!

Excellent View of all Topps Baseball Cards Presented Yearly of each cards front face reduced to approx. 20% of the actual size on nice premium glosy thick paper. Hoping that someday maybe the size (larger) and back side of each card can be made in the same format. For now the next best thing to actually owning the entire collection which (Depending of course on condtion) could cost approx. half million dollars. An excellent gift for any baseball card fan of years gone by to re-live there child-hood memories in this massive volume weighting more than 10-lbs.
