Synopsis

Introducing an essential addition to the 5-million-copy bestselling Brain Quest Workbook series! Finally, 6th graders can reinforce what they learn in school with a new workbook from Brain Quest. The book boasts 300 pages jam-packed with curriculum-based activities and exercises in every subject, with a focus on math and language arts. Original full-color illustrations throughout give the book a bright, lively style that will appeal to older kids. It is engaging, user-friendly, and written to make schoolwork fun. Sixth graders will delve into research and analysis, metaphor and meaning, ratios and proportions, expressions and equations, and geometry. The workbook covers spelling and vocabulary, writing, social studies, science, and more. Written in consultation with the Brain Quest Advisory Panel of award-winning teachers specific to each grade level, and with all content aligned with Common Core standards. Plus fun stuff: Each workbook comes with a mini-deck with 100 all-new Brain Quest questions and answers.

This book is great. We've used other brand workbooks in the past and this one is by far the best I've

tried. My kids don't like it much - we use it as a time filler in the summer to keep their skills sharp while they are out of school. It seems to match up well to what the kids are learning/have learned in school. The pages are laid out nicely and are easy to follow - I like that there is an answer key in the back just in case. I will buy this brand again next year. This mom approves!

We love this workbook. We are currently homeschooling my six grade daughter and using primarily online programs. I wanted to find an adequate workbook that covered all the years curriculum and would still hold her interest. So far she seems to be enjoying the work and completing it. I'm enjoying it with her. Will be buying the seventh grade workbook if we are still homeschooling next year thank you so much.

We homeschool our kids and I was getting so frustrated making my own worksheets. We did research, decided to try the Brain Quest books, and I am so glad we did! They're fantastic. Colorful, fun and engaging, the kids prefer them to "mom's boring worksheets". Also, with a degree in education, I feel qualified to say that the material itself is solid for the grade levels. We'll be buying more from Brain Quest as the kids progress!

Bought for a 7th grader who was struggling. Loved this!

Excellent boom that helps to challenge and educate my.6rh grader. Will help keep his skills good over the summer and ready for fall

I got this for the good reviews My. daughter is going into sixth grade it is now the summertime prior to that, it seems challenging on about a level 8 meaning I don't feel that it's challenging enough but she is getting at least one wrong Or sometimes two on each page so maybe that means it's helping her?

Excellent Book for Homeschooling!!! Love it!!!

I've been getting these books for the pass 6 years for my kids to have something to do in the summer. they are the best thing you can do for your child. They really help the first year i got this for my daughter she was in first honors in school and she's been there since.
