This uppercase letters book is really fantastic! My 3 year old loves to do the activities. We paired this book with the tracing book by Kumon and everyday she has a new activity. I'm a stay at home mom and wanted to help further my child's education before going to school in a fun non stressful or forceful way. Kumon makes it simple to understand and fun for kids. Wonderful product! I actually purchased the racing book at books a million so I would recommend buying through it saved me a few dollars. Book came in fast and in perfect condition!

This book is fantastic!!My son is 4 and it is great. If you are looking for a book to go along with it for additional practice forming the letters, try the Handwriting Without Tears series.Great book to introduce and learn the letters while also learning to form them.Only complaint I have would be to make the pages easier to tear out!

Wish I started my daughter with Kumon when she was younger. She is 7 now and loves these books. My son who is 4 also loves his Kumon workbooks. Thank you!

Good way to get them writing and developing the coordination needed to write. Definitely for beginners.

Similar to the lower case letters, the upper case ABC's are a fun way for my 3 y/o to learn to write.

I love the logical order of learning letters in this book (for example starts with having the hold trace straight lines, then the letters using only straight lines, then adds in diagonal lines, letter with diagonal lines, etc). My son really likes it and is much more excited to use this workbook than any of the others we've tried.

My kiddo was asking to practice writing. When she showed interested, I bought this. She loves it. She goes through phases where she wants to practice letters and then refuses to practice letters. I go with it. When she's wanting to practice, this is the book she wants to use.The content of this book is solid. Clear exercises that my child was able to complete independently after I gave instruction on

each page. This allows me to be close by doing my own thing while she spends several minutes per page before I have to instruct again.The book is great quality paper and has nice binding.

Perfect for our beginning writer 3 year old!!
