Melissa K. Norris inspires peopleÃ¢â ¬â„¢s faith and pioneer roots with her books, podcast, and blog. Melissa lives with her husband and two children in their own little house in the big woods in the foothills of the North Cascade Mountains. When sheÃ¢â ¬â„¢s not wrangling chickens and cattle, you can find her stuffing Mason jars with homegrown food and playing with flour and sugar in the kitchen.Ã Â

Melissa is like a breath of fresh air. I love her book, blog, website and periscopes. The book is very informative, practical with the inspirational. Great way to start living a chemical free life and improve

your family’s health. I am excited to make her food and cleaning recipes. I would highly recommend this book!

A nice book full of little interesting stories, tips, hints and recipes to help with everything from cooking, cleaning and self care. A very easy and fun read. A great little "how to" to start you on your own journey of a made from scratch life. The recipes are very easy and not too labour intensive. Anyone of any level can handle all the recipes given in this book.

Melissa K. Norris has written a wonderful "how - to" book that is also like having a conversation with a friend. She shares personal stories along the way. I would recommend The Made From Scratch Life to anyone who is interested in living a more natural life or even a prepper. Knowledge of how to live a sustainable life can be helpful to anyone. Definitely a book I would buy again!

I have already made some of the recipes and have enjoyed Melissa’s stories.

I ADORE this book. i preordered and was eagerly awaiting to receive this gem. I have taken a lot of advice from this book already and look forward to applying more of her knowledge into my own life. It isn’t just recipes or just cleaning tips. She encourages you in several aspects of your life (including cooking from scratch, gardening, canning...etc) I will definitely reread and use as a reference book for my future living. Thank you for writing this and when is the sequel??:)

This book is fantastic... The layout is easily navigable while including all the necessary information for anyone who wants to simplify their life and "get back to basics". The author’s voice is warm, and one of sharing something good, not condemning those who are not as far along in the journey. As an added bonus, the feel of the cover is one of those simple things that makes me smile when I pick it up to read with my tea! Love it.

This is a book with so many personal stories by the author that touch the heart in addition to Made from Scratch items and recipes. I enjoyed it so much I purchased a copy for my daughter.

Received as promised, love the retro info. Bought a second copy for a gift to DIL who likes "old time" recipes and methods. Very nice :).
