MARGARET PETERSON HADDIX is the bestselling author of more than twenty books for children, including The Shadow Children and The Missing series. She lives in Columbus, Ohio, with her family.

As a second grade teacher, I became acquainted with the 39 Clues series through my classroom book club. However, my 9 year old granddaughter is really the one who inspired me to start reading the books. After reading Book One, I was hooked. The books are filled with fascinating details about

history and geography. The story line is well written and fast-paced. I can’t put them down! These adventures are perfect for strong readers ages 9 and up.

Well, it’s a very tense book all right. Everyone does a lot of shrieking and shrieking and "No! You’ll need me soon to get the clue, don’t ditch me now!" Everyone secretly considers their options and how to betray the others. It’s the Cahill family at its ugliest. However, it is a satisfactory conclusion, and Mrs. Pruderbottom was the one who MADE this book for me. You’ll see what I mean. ;) oh, and Hamilton holt. I love Hamilton! He’s better than all the rest put together!!

My son loves this series and he’s 10

I love the 39 clues series and have been hooked on it since the first book! I am so glad about how this book ended as it explained a lot of the twists that have happened in the plot so far. I was hooked on this book and loved it so much that I finished it in 3 days as I couldn’t put it down! I loved all the twists and turns and how this book was ended. I think this is a series I will read over and over again and I can’t wait to read the next book and the following series from this! :D

Very disappointed as the spine of the book was received damaged / torn. My kids were super upset as they were eagerly awaiting for this book to add to their collection.

It was a good book. I CAN’T BELIEVE THAT AMY ANDROID DAN SORT OF WON THE 39 CLUES ALLTOGETHER WOW

this is a great book. I’ve read all of it and loved it ever since I began reading The 39 clues. I do have to say though, some words may be hard to understand. Otherwise this is a great, exiting and interesting book and if you haven’t I recommend reading the previous books in the series it will defiantly be exiting and will help you understand this book.

I think that this book is a very good sequel to the previous books and has a lot of excitement in it
