Customer Reviews

im not a classical nerd by no means, but it is nice to be able to play some music on guitar that dont make the neighbors yard die . some of the coolest music ever written . the book is nice and the cd sounds good . would have given it 5 stars if the book had a spiral binding .

Great book!

It's a great book for beginning guitarists. Very well-organized and informative. Far better than some books I've come across before.

This is an excellent material for intermediates I love it...

Good book.

I've played guitar for a while, self taught. I haven't played well. I bought a classical guitar to work on

left and right hand skills, as well as a little theory. This book has helped (is helping) with my hand skills and all around ability. The songs are great and this is an extremely fun way to learn.

Great book

Gift for my husband. He loves it.
