It is a fun book with a lot of stickers. However, the book fits for 3-5, as the back cover of this book says. On this website, the description says 3-7. I got three books (theory made easy 1&2, my first music theory book 1) for my 7-years old daughter. It is way too easy for her and i am afraid she cannot get much from it. It could be a 5-star book for 3-5 years old.

Great book for my beginner son, he's a beginner learner.

I have been teaching my 4 year old son using this book. It's his first music book and he loves it ! The stickers and activities make it interesting and engaging . He learned the the notes very quickly.

My 5-year old daughter loves the exercises (and stickers) in this theory! She actually begs to do as many pages as possible. It's helped her learn and cement the note types, names, and note counts. We went through this book fast, and are now going to the Level 2 book. Not sure what I'm going to do when she finishes the Level 2 book.

My 3 yo daughter will literally beg me to do pages of this book. It had the perfect mix of instruction, repetition and sticker fun with cute animals to keep them engaged. The repetition also makes the learning natural. Love it

This book is so fun. Sticker activities don't seem like work to my 6 year old.

Very good starter book. Daughter (age 9) loves it. Stickers as "incentive."

Love this product It's great fun for starting students.
