Synopsis

Social Development, 2nd Edition provides psychologists with a comprehensive, scholarly, engaging, and up-to-date treatment of theoretical insights and empirical findings in the field of social development. It conveys the excitement of recent advances along with the accumulated knowledge that forms the basis of the field. Psychologists will gain a better understanding of cultural variation, both among societies around the world and within our own society.

Customer Reviews

Glad I rented this textbook.It has really helped me with my UHV EC-6 study courses.

Used this book for one of my classes in college. It was pretty informative.

Great book

great text

The book was in great condition.

Just as promised!

This text book is honestly awful. It is loaded with sweeping generalizations and it also appears

insulting to the intelligence of the psychology students forced to read this trash. It is very politically moved and has racist undertones.

Yes it met my expectations.
