Synopsis

Porsche, the great Stuttgart-based manufacturer, certainly needs no introduction. In over 60 years, it has built unforgettable road and racing cars, which have every right to be part of the fabric of motoring and motor sport history. Their designations may be numbers, but behind each one of them there is a legendary car; the 356, 911, 928 and 959, the 550, 906, 908, 917, 956 and 962 are just some of the cars that make up this first 'virtual gallery'. An assembly of all Porsche's fundamental models in chronological order, their stories told in brief passages complete with their technical and design specifications. A true vademecum that has to be part of every Porsche enthusiast's library.

thank you

great book

A very interesting and well done compilation of 190 different Porsche models starting with 356 No. 1 and going through the 2016 911 R. It covers most of the major road and race cars ever produced. There is a drawing, a photograph and the technical specifications for each model. There is also a listing of Porsche racing victories which reminded me of how dominant Porsche once was in F1 when it was teamed with McLaren. If you read the book sequentially it provides a very interesting perspective on the development of the cars which is missing in most other books. If I have a complaint it is the artistic license taken with some of the drawings and particularly the proportions of the cars. However in the overall scope of this wonderful book it is a minor nit.
