Customer Reviews

Very amateur. Not professional photos won't do much good for professional photographers looking for a variety of poses. There's also no explanation about the props to use and where to get them ie bean bags or what the babies are being laid on.

Sheesh... Haven't I learned to look at the reviews before buying a book yet? My bad. I sure hope you are smarter than me and are looking at the reviews of this book BEFORE buying it. The other reviews say it all...

I paid just to see pictures. I could of seen on pinterest.. I was hoping to see some explanation on how to achieve these poses. What a waste of my time and money. Smh

not what I thought just pictures not really any info on photography or how to take better photos of babies

No real information given with this. Was hoping for more specific photography information like lighting or props. Do not recommend this.
