Synopsis

Get inspired to take family portraits your clients will love Ã Â Whether youÃ¢â ¬â„¢re facing your first family portrait shoot or are a seasoned professional looking for fresh inspiration, Design AglowÃ¢â ¬â„¢s 100 ideas for posing newborns, babies, children, siblings, and families will help you approach each session brimming with confidence and creative ideas. Design AglowÃ¢â ¬â„¢s style-savvy approach has resonated with photographers (and their clients) everywhere. This curated collection reflects their modern sensibility, with poses from industry superstars such as Elizabeth Messina, Rachel Devine, Jose Villa, Tara Whitney, and Anna Kuperberg. YouÃ¢â ¬â„¢ll also get tips on directing your subjects, follow-up shots for each setup, and behind-the-scenes lighting information.Ã Â Both eye candy and practical reference tool, The Design Aglow Posing Guide for Family Portrait Photography will inspire any family photographer, novice or expert, to Ã¢â ¬Å“wake upÃ¢â ¬Â• their style and take beautiful portraits for modern families.

Customer Reviews

I love that the book is easy read. It can be used by a professional photographer or a mom (or dad) that is trying to take better pictures of their children. All the images shows the camera settings used

by the photographer and instructions and extra tips to modify the pose. The images are gorgeous and inspiring. A+++++

I was hesitant to buy yet another photography book (I have several) but I have such a high respect for Lena Hyde in the photography community I could not pass this up. I was not disappointed!! I have been a photographer for over 4 years and this book has such a refreshing view on posing and so much more. The pages are laid out so simply that you can just pick it up and flip to any page and get great tips! No need to read cover to cover. This book will stay on my coffee table and probably in my car on the way to shoots:) and not in a drawer or my shelf.This book is also great for moms who would like to take better pictures of their own kids and families! It’s not too basic and not too advanced. Once again the Design Aglow team comes through for all photographers in all stages of their ability!!

The ladies at Design Aglow succeed again! Everything these ladies touch turns to gold! :) The posing ideas in this book have already proved to be easy to use and so successful in getting the shots I have in my head out to the clients. The photography is excellent and the "instructions" with every photo make sense and are easy to implement. If it says Design Aglow on the product...you KNOW it’s going to be good. :)

I liked the book because each idea was devoted to 1-2 pages with an example on each page, great for a beginner who needs ideas.

Great inspiration! I am a novice photographer and my favorite subject are my kids. Love the tips and the information on the settings that were used by the photographers to take the shots. I am sure this will be a reference tool for me for many years to come! Amazing work. I am going to order a copy for a friend too!

Great book for photographers or just hobbiest looking to improve posing with children. This book guides you through getting those natural shots that moms love so much and capturing those raw moments you are proud to put in your portfolio. If your considering order this book do it. You won’t regret it.

This is one of the BEST photo books I have ever purchased. The images are plentiful and

gorgeous, and shot specs and "how I got the shot" details are included with each one. The narrative that accompanies each photo has a theme with lots of great inspiration and ideas. LOVE this book!

Great book - getting ready to photograph our grand daughter when she arrives next month!
