Synopsis

This set of more than 400 flash cards offers both review and practice for the AP Calculus exams. The cards include formulas, definitions, theorems, derivatives, integrals, differential equations, and more for both Calculus AB and Calculus BC topics. Concepts on the front of each card are defined and explained on the reverse side. Additional exam practice comes from 100 sample problems, with solutions on the reverse side. The 4 1/2" x 2 3/4" cards have a punch-hole in one corner that accommodates an enclosed metal key-ring-style card holder, allowing students to arrange the flash cards in any sequence that suits their study needs. Here is a valuable study aid, whether used alone or in tandem with BarronÃ¢â ¬â„¢s AP Calculus exam review book. BONUS! An exclusive online exam included with the purchase of the flash cards.

Customer Reviews

David Bock won many awards as a high school teacher of AP Calculus and Statistics and for many years was a grader for the AP exams. He also worked in the Cornell University mathematics department in charge of outreach to K-12 teachers. Dave now leads professional development workshops and summer institutes for The College Board and mentors teachers for the National Math+Science Initiative.

I bought these for my daughter and she says they are well done, includes plenty of challenging practice problems and it makes it easy to study anywhere. I would say these are only to be used to

supplement the book and work great for reviewing ideas and terms.

This product definitely helps with Calculus and the concepts. However, I wish it went more into depth with Calc BC for example, series tests, parametric, etc... Wouldn't recommend for anyone studying for Calc BC.

While I found the flashcards very helpful to study for the exam, I don't think they fit the framework of the AP curriculum that well because there was a decent amount of stuff that you don't actually need to know in there.

Very impressive. Good quality cards that cover a large range of concepts. I will be buying other subjects as well.

Quick fast review material

Helpful, well built, worth the price.

Great size. Lots of information. Easy to carry around.

exactly as described. would order again from them
